

JUNIOR SECTION

PROJECT PROPOSAL, 2016 JUNIOR SECTION, TCV SCHOOL, GOPALPUR

PROJECT TITLE: MUSICAL INSTRUMENTS

Usage of Musical instruments:

As per the needs and objectives of this project, the music teachers are able to plan and work out music practical teaching course to each individual more depth and the students are efficiently making the best use of the Musical instruments.

Since the music room is equipped with all the required instruments, the ratio between the students and the music instruments are almost same and it is very convenient for the teacher to teach and the student to learn music in their hand. The students feel enthusiastic to be shifted from class room to a different atmosphere of learning music. The student's minds are set to learn music as they are excited to go to the music room during its particular period.

All the students took part in music instruments learning course. During Gyalshen week, the students from class I to Class VI have performed Tibetan song and dance. Almost all the students have learned Tibetan guitar (Dranyen), Dulcimer and 50 students took part in learning (Pewung) and out of which 15 students have completed the Pewung course. Those 15 students were able to performed song during TCV School Gopalpur sports day. They also able to performed song and dance during TCV School anniversary which held on 23rd October 2016.

So my hearty thanks to the music teachers who efficiently made best use of the Music instruments and I have the strong conviction that this project has benefited both the learner and the mentors as well in parting their knowledge.
